# Preparing every worker, everywhere, for the future of work

Our enterprise SaaS platform predicts the future and transforms your static workforce data into dynamic scenario planning.

Used globally by over 100 companies in 26 countries and across more than 21 industries.

Unlock the value of your data

Faethm's enterprise platform makes data more accessible by representing your contextual workforce data in a visual, interactive format to deliver clear predictions on the future impacts of emerging technologies.

Strategic workforce planning

Anticipate future workforce supply and demand with actionable insights on the future impacts of technology on your workforce.

Career mobility

Assess the viability of individual job transitions and identify optimal career transition pathways to jobs with future growth.

Sustainable automation

Lead a technology adoption strategy that considers and plans for the future employability of your workforce.

Learning and development

Identify skill gaps between the jobs of today and the future to deliver targeted upskilling programs.

Request a demo

We'd love to talk with you about how to prepare your workforce for the future of work. Contact us today to request a demo.
