

Critical capabilities for the future

Future capabilities are the innate human attributes that no robot can replace, and the digital literacies needed to succeed in an increasingly digitised and data-driven workplace.

Faethm provides targeted gap analysis to future state in order to focus your L&D budget to “level-up” the organisation with the right capabilities to the right employees.

Develop future capabilities

Prioritise development of the capabilities most critical for the future.

Assess technology impacts

Understand the current and future impacts of emerging technologies on capabilities.

Close capability gaps

Pinpoint exactly where the capability gaps exist and act now to close the gaps.

Uplift capability maturity

Gain a clear view of the capability maturity level required for each role into the future.

Capability Finder

Use Faethm’s interactive analytics tool to evaluate current capability strengths and weaknesses in your workforce, and review the future state of capabilities needed for each role.

Capability Snapshot

Receive a summary report of capability gaps across your workforce and Faethm’s recommendations on prioritising uplift for those that are critical to your strategic advantage.
